### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

**Please renumber claims 31, 31 and 32 to 31, 32 and 33.**

### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance: The cited prior art fails to teach claimed invention alone or in combination.

Applicant successfully argues that cited references do not teach each and every limitation of the claimed invention. Specifically "mapping at least one element in document to map to a class and interface to generate for the class" is not taught by cited references. Cited references seems to teach mapping element of the document to a class but fails to teach mapping an interface to generate for the class as claimed.

Therefore the invention is allowable over the cited prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
